April 18

I frequently travel for business, often carrying fragile 易碎 samples with me on the plane. Most carry-ons these days are soft-sided, so it was a relief to find something that offers adequate protection. **I've been mostly happy with the carry-on**, but the larger bags have caused some problems. My black cases look so similar to everyone else's that other travelers have almost taken them by mistake! More variety would be nice.

I also have some **reservations** 保留 about the mechanical elements of this set. In particular, the retraction 收縮 mechanism 機械作用 of the wheels appears so delicately constructed as to be in danger of collapse. 瓦解
